AMUSEMENTS.

Park-"Saharet," the Skirt Dancer. Among all the skirt dancers who have ossomed the last few years there is only one now and then who, by original methods and artistic conception of the possible beauties of this comparatively new form of entertainment, is able to impress her perconality on the public so as to be remempered. Only a few of these have been seen in this city and among them must be mentioned "Saharet," now at the Park. "Saheret" is a gracefully formed creature with an Oriental cast of beauty that adds no little symbolic illusion to her performance. In her raven-black hair she wears a pink rose. Her face reminds one of the features some old medallion, painted from a eauty in an Indian zenana. Her complexis fair as a child's, and her sweet, girlish face wins the audience before she has executed a step of her wonderful dance. It is plain that she is but a girl in years. She begins her dance with a slow, circling novement, describing alternate curves with her childish feet until her abundance of pink skirts becomes a whirlpool of scalloped drapery. Then follow dainty dance steps introducing exclamation points of high kicking at every revolution. The empo of the orchestra increases and the lance grows more furious. Shortly the flying skirts, revolving legs, circling arms and ing face seem to be so tangled in idoscopic effect that one is at a loss to place all in their proper anatomical rela-tion. Out of this elimax the girl springs in the air, alights on her hand and turns a "cart-wheel." With a double hand-kiss she rushes to the scenes; but is recalled again and again until from pure exhaustion she can do no more. "Saharet" is an Austra-lian girl, and until a few weeks ago was employed by Hoyt in "A Trip to China-town." She has not been in the country long. Her dancing has attracted the at-tention of Koster, before whom she danced New York recently and she will be seen Koster & Bial's garden during the sum-

Lew Carroll, who is with Fred Rider's "New Night Owls," at the Park Theater, gives an unusually bright little sketch in ves an unusually bright little very good e olio which is a part of the very good burque legerdemain. There is a great deal of ng, some good singing and much nent known as "dash" about the performance. Sam Collins is especially funny in his "Niagara" act, in which May Clark Van Osten aids him. His knockabout work s excellent. Gordon and Lick have a musical et, Blanche Walworth some taking songs, saharet a dance that is sensational and the Princess Kuta Kuta" closes the perform-nce. Florence Miller, the well-known burleaquer, is with the company, which is well costumed and which contains much good talent in the vaudeville line. The Park was filled twice yesterday, last night's audience crowding the theater. The company re-"A German Soldler," his new comedy.

La Loie's Hard Work. The coming of Loie Fuller to Indianapolis for one night-next Thursday-is recognized as an important event in an already notable season. The demand for seats when the advance sale opened yesterday shows that the people here appreciate the coming of this derful dancer, who has set all Europe talking and who brought all New York to her feet last month. "La Loie," in a recent nterview, tells of the hard work she had in bringing her drapery dances to their present state of perfection and beauty. She

"It took me many weeks to educate my arms, limbs and body to the dance. The graceful manipulation of the soft draperies is an extremely difficult matter to acquire, and thresome. It was dreadful at first, but I ersevered and can do six dances in a per hough I feel the exertion when I have fin-shed and the enthusaism of the dance has isher, and the enthusaism of the dance has descrited me. When I grew to learn the beauty of the dance I studied the literature of dancing, and in the 'Bibliotheque National,' in Paris, I found Miriam, the sister of Aaron, recorded as the first drapery dancer. The dance, as then given, was purely Oriental, and consisted more of the swaying of the body and the moving of the arms than of any motion of the feet. The dances represented emotions, and every national event was symbolized in that way. The feet were first used in dancing at a comparatively recent date, only a few hundred years ago, and the Nautch girls of India have stoien their dance from dervishes, who twirl their skirts about them and fall in an ecstacy of religious fervor."

The company appearing with La Loie Thursday night at English's includes Willis P. Sweatnam, Fanny Wentworth, Charles D. Kellogg and Julius Witmark.

Empire-"Zero." Usually the specialty troup is stranded at a wayside inn, in nothing but its tights and trunks (not baggage). In "Zero" they are picked up as castaways by a ship bound for Mr. Nansen's timber claim, the north ole. The company thus fortuitously found is somewhat above the average. The cleverest specialty is that of Valdo, the instrumental man, who quite realistically imiand machinery. Hodges and Yaunchmore, a colored couple, give a clever exhibition of warbling, cake-waiking and buck and wing dancing. Others of the specialties are Fish d Quigg, knockabouts, Charles Banks, old aid impersonator, Madden and Curran, sh team, Bryan and Cleaver, sentimental rish team, Bryan and Cleaver, sentimental vocalists, and Monroe sisters, serio-comics. The coening scene is beautifully staged. Interspersod through the performance are a number of ballets and marches executed with more than usual precision, a solo "dance" of the "butterfly" order, a medley and a Trifby dance by six young woman, who are barefooted to about an inch above he garter line. The transformation scene list ends the show is pretty. The company at the Empire for a week, giving two performances daily.

VETS AND THE COLTS

FIRST BALL GAME OF THE SEASON AT EAST OHIO-STREET GROUNDS.

Players-Vets Win by a 4-to-2

"Colts" put up a pretty stiff game, Monroe and Weimer doing the pitching for them while Cross was in the box for the Vets. Bob Wood caught for the latter team, while Grim was the Colts' backstop. Butler captained the youngsters and played second a new trick-that of cutting first base-but it didn't work, for umpire Amos Rusie had an eye on the runner, though the bleachers shouted "He didn't see it." Stewart made a one-handed stop at second that was the feature of the game. It was a beauty, and set the crowd wild. Irwin, who played right field the boys have not yet got their eye on the ball. Besides, the ground is perfectly dead. The fielding was excellent and at times brilliant. Monroe's work in the box was greatly admired, and Weimar's was well liked. Cross did not exert himself, but was effective just Conner appeared to be very fast was in center for the Vets.

Motz and McCarthy were over by the practice while the game was in progress. The right-field bleachers were packed, while the other side was half filled. Probably a housand people watched the game with the iveliest satisfaction. The weather was magnificent, and the boys got the best day's practice they have yet had. They are rap-

BOYCOTT CIRCULARS REPUDIATED.

Injustice Done Local Clothing Men-Central Labor Union's Meeting.

Since the first of the year the Cincinnati garment workers' unions have had trouble with manufacturers of that city, and a boycott was declared against several firms. Last week a representative of the Cincinnati garment workers visited the Central Labor Union of this city and asked that the Globe Clothing Company and the Progress Clothing Company be boycotted, stating that both firms had been unfair to union labor and had patronized the boycotted Cincinnati firms. The subject was referred to the grievance committee. The committee was directed to investigate the matter fully. Before the committee had time to act, however, the representative of Cincinnati organizations flooded the city with printed handbills declaring a boyon the two stores. Last night this imously repudiated in so far as they relate to the Progress Clothing Company. The ommittee stated that after a conference with Messrs. Bliss and Swain, proprietors of the Progress store, it was satisfied that no clothing had been bought by that firm from the boycotted Cincinnati firms since the strike was inaugurated. The order books of the firm were submitted to the mmittee. Mr. Bliss attended the meeting of the Central Labor Union last night an asked permission to be heard. He said that his firm would forfeit \$1,000, to be paid to the treasurer of the Central Labor Union the Cincinnati garment workers cou show that their charges were correct. So the grievance committee for further consideration. Mr. Perkins declared that the circulars had been distributed by outsiders without any authority at all, and that as an injustice had been done the Progress Clothing Company it was not fair to delay action. He thought that the firm should be set right immediately, and that union men of this city should know that the boycott was unauthorized, was not supported by facts and ought to be repudiated imme-diately. The representative of the Cincin-nati garment workers did not attempt to justify his course in scattering the handbills without authority of the central body. After the circulars were repudiated as to the Progress, Mr. Bliss said that he would be glad to furnish any further proof that light be required as to the fairness of his firm towards the Cincinnati workers. A letter was read from one of the boycotted Cincinnati firms refusing to release the Progress Clothing Company from a con-tract for one hundred uniforms placed prior to the strike. On this order the firm has already paid for part of the goods, which have been delivered.

Further time was granted the committee to consider the charges made against the Globe Clothing Company. It is believed that that firm has been unjustly treated as well as the Progress, and the committee was authorized to give the result of its investigation to the press as soon as it is learned that the charges are untrue. A partial investigation has been made, It was thought that the circular should also be repudiated as to the Globe Clothing Company, as it had been circulated without the knowledge of the Central Labor Union, but it was decided to make a full investigation

March 9 the Bricklayers' Union reported that work was being done on city sewers by nonresident workmen at a lower rate than is paid union labor by local contractors. The matter was referred to Mayor Taggart, who asked that a written statement of the facts be prepared for submission to the Board of Works. A communication was prepared, which will be sent to the board. Special attention is called to the fact that the eight-hour law is being violated. The Central Labor Union is being violated. The Central Labor Union holds that the municipal authorities are of this law where public contracts are in-volved, and the board will be asked to see that the law is obeyed. Albert Veregge was appointed as a member of the grievance committee, vice Mr. Sommers, who re-

It was reported that the boycott against Dickson & Talbott was not proving successful, as twenty-two union printers were seen at the Park Theater last week. Mr. Perkins said that he presumed other union men than the printers were disregarding the boycott. A motion to instruct affiliating bodies of the Central Labor Union to assess fines against all members seen attending Dickson & Talbott's theaters car-ried, the Central Union refusing to concur in the request presented by the Stage Hands' Union to concentrate the fight against the Park Theater, which, it is alleged, is attended by laboring men almost

THROAT CUT FROM .EAR TO EAR. Leonard Thornton, a Young Negro, Fails to Commit Suicide.

Leonard Thornton, a colored man twentytwo years old, twice attempted to end his own life last night. He has been living with his sister, Mrs. Anna Miller, No. 108 Eddy street. Mrs. Miller left her brother alone shot. They ran to the house, but failed to had gone to buy a watermelon. Upon seeing the officers he dropped his melon and pulled his revolver as Colbert started towards him. But he ran without firing. The populace footsteps coming towards him, Thornton ran towards the center of the city. By the time he reached the California House he was completely exhausted from the loss of blood. Rushing into the hotel, he created intense excitement by his gory appearance. Blood was spurting over his hands and clothing. The cierk telephoned to the police station, and detective Stout and wagonman Laughlin were ordered to the hotel with the patrol wagon. Thornton was not too badly wounded to talk. He was taken to the dispensary. On the way there he told wagonman Laugh-lin that he had been sick all his life and was unable to work. For the last four or five months he has resided with his sister. Tir-ing of burdening his relatives longer, he said he had determined to end his own life. Thornton declared that he had first tried to shoot himself, but that the revolver he used missed fire. It was because the razor was too dull that he had not been successful in the second effort. From the dispensary Thornton was taken to the City Hospital. His wounds were found to be of a superficial character, and he will doubtless recover, the hospital physicians think. The hospital physicians say that Thornton has been there beore and is suffering from a constitutional lisease. The revolver Thornton used was found to contain two empty cartridges, one of which had evidently been recently discharged. The barrel was still hot. Thornton said he had received the best of treatment from his sister, and begged the officers not to take him home, as he disliked to burden her longer. Mrs. Miller says her brother has recently read a great deal and seemed to be very despondent. He complained of cerebral pains. She believes his mind is unbalanced. CARROLL COUNTY MUST PAY UP.

Bishop Potter Honored.

NEW YORK, March 30.—Bishop Potter has been invited by the authorities of Cambridge University, in England, to be select preacher to the university during the month of May. 1897. The appointment as select preacher to one of the great English universities never has been conferred before on a bishop or priest of the American Church, so far as the priest of the American Church, so far as the records obtainable show. The morning sermons on Sundays in term at Oxford fail to the dean, the canons, the heads of the several colleges, the divinity professors and the professors of Hebrew. None but the most eminent clergymen holding high degrees from the three great unversities in Great Britain is ever appointed to the office of select preacher. Bishop Potter holds the degree of doctor of laws from Cambridge, and is one of the three American clergymen who hold the degree of doctor of divinity from Oxford.

reports that the Neptune has taken 20,000, the Walrus 9,000, the Kite 9,000 and the Leopard 10,000 seals. There is little or no Leopard 10,000 seals. There is little or no catch of fish among the remaining tensteamers. One vessel of the fleet, the Windsor Lake, was lost on Thursday, being crushed in an ice floe. The crew were saved and brought home by the Labrador. Another one, the Ranger, was also nipped, but was kept afloat by constant pumping. A third, the Hope, had her main shaft broken and is sailing home. The Labrador's report renders the prospect of a successful fishery almost hopeless.
